

Current Price of Galvanized Steel Cable Trays

Article Overview

Galvanized steel cable trays typically range from \$2 to \$25 per meter, depending on type, coating, and order volume.

Pricing Overview

The cost of galvanized steel cable trays varies based on material, coating, size, and supplier. Standard hot-dip galvanized (HDG) trays are more durable and suitable for outdoor or corrosive environments, while pre-galvanized trays are cheaper but less resistant to corrosion. Typical prices per meter are:

- Low-volume or standard trays: \$2-\$10 per meter
- Medium-duty HDG trays: \$10-\$25 per meter
- Bulk orders (50,000+ units): as low as \$0.40-\$2.25 per meter depending on supplier and scale

Factors Affecting Price

- Material thickness: Commonly 1.3-2.5mm for HDG trays
- Tray type: Ladder trays are more expensive than perforated or wire mesh trays
- Coating: HDG, powder coating, or trivalent chromated zinc finish impact durability and cost
- Order quantity: Larger orders often receive 15-30% discounts
