

Dedicated mesh cable trays for IDC data centers

Overview

Steel wire mesh cable trays provide a practical solution for organizing and supporting cable runs in demanding IT infrastructure environments. Since 1968, we have produced metal fabricated products for mission-critical applications using U. steel and precision manufacturing technology. Learn more about. In a data center, you don't just need tidy lines; you need a system that keeps cables cool, accessible, and safe. Our capabilities include wire mesh cable trays, liquid cooling line trays, drip pans, blanking panels, and custom-fabricated support structures engineered to. With generously dimensioned cable trays, clear structures and flexibly expandable systems, you can create the basis for efficient data centre operation – regardless of whether it is a new installation, a conversion or the expansion of an existing data centre.
