

Dimensions of a 12-Channel Monitoring Distribution Box

Overview

The dimensions are (H) 242mm x (W) 354mm x (D) 96. The degree of protection is IP43 in an enclosure. The ZT1204DMX-P1 is a 12-channel DMX-controlled power distribution box designed for stage lighting and professional entertainment applications. In the rapidly evolving landscape of corporate communication. Major Tech offers high quality flame retardant din rail distribution boards which are available in elegant flush mount or surface mount options, intended for indoor usage where aesthetics and ease of use are paramount. It uses any of the existing MD series internally-shunted, 333 mV output split-core. Meet the C12: a 12-channel system where each channel is fitted with a 16A/30mA RCBO, a fast-acting overvoltage protection keeps your connected equipment safe from harm and a real-time monitoring keeps you informed about all things electrical. Failure to observe the instructions or precautions in the user manual can result in electrical shock, serious injury, or death, or can damage the distribution box, potentially rendering it inoperable.
