

Distribution Box APW

Article Overview

The APW series by ILME are heavy-duty distribution boxes designed for aggressive environments, offering IP66/IP67 protection and versions suitable for extreme temperatures and corrosive conditions.

Overview

The APW distribution boxes are part of ILME's range of industrial enclosures designed to house electrical and control devices safely in harsh environments. They are available in multiple formats, including APW11 and APW19, and are constructed to withstand extreme temperatures, salt, and other aggressive conditions .

Key Features

- Protection Rating: IP66/IP67, ensuring dust-tight and water-resistant performance .
- Material and Finish: APW versions are typically black and designed for extreme environments, while other variants like APV are textured RAL 7040 and APS are unpainted .
- Construction: Equipped with galvanized steel captive cross-headed screws for easier installation and a new gasket system for enhanced sealing .
- Dimensions: For example, the APW11 model has external dimensions of 115x140x61 mm and weighs approximately 407 g .
