

Distribution box module connector model

Overview

The standardised M23 connector in accordance with IEC 61076-2-117 simplifies the connection of the collective outlet with its quick connection mechanism, ensuring safe and time-saving installation. The M23 screw connection is possible. Our flexible distribution boxes enable reliable, decentralized signal transmission and power transmission up to protection class IP67 – wherever passive distribution boxes are required. Discover. Murrelektronik's passive distribution boxes provide a much more convenient method for connecting sensors and actuators to the control cabinet. Actual units use PNP status indicator, NPN status indicator, or neither. Dimensions are shown in mm (in).
