

Fabrication of a 90-degree downward bend in the cable tray

Overview

You can buy a manufactured 90 degree bend or make one on a cable tray bending machine but in this video I show you how to make one using a metal bar. In this video they are producing 90 degrees bend in steel cable tray. The learners fabricate (make) flat, internal and external 90 Our electrical apprentice students at Tresham College are doing the City and Guilds 5357. The length of the bottom side (bottom diagonal) after bending the cable tray should be equal to the width of the cable. Here's how to create a seamless rolling 90-degree bend in cable tray! □□ This guide walks you through each step, from marking and cutting to forming and joining. Since the jaws of the bolt cutter drags a layer of zinc across the cut end and forms a protective layer.
