

How long is the fiber optic cable puller

Overview

Each pulling sock offers a one meter total length for a secure attachment to the cable. Additional information on these solutions and more is available in the Future Ready Solutions Tools & Test Equipment collection. Most fiber optic cables boast a pull strength of 200+ pounds thanks to the internal kevlar or aramid yarn, known as the strength member. Many installers pull fiber by the outer jacket which is prone to. The Fiber Optic Cable Puller from Condux sets new standards for safe, accurate pulling of fiber optic cables. On the job, gain easy access to all components with the open face design. Leveling and stabilizing hardware is included. More than half of cable problems happen because of wrong pulling.
