

How many cores are in one ODF fiber optic patch panel

Overview

With 48 core and 24 port design, it offers efficient optical signal transmission. Its sliding feature makes it easy to access and manage. FBWN-ODF-144-A 144 cores 4U ODF fiber optic are the backbone of your fiber optic network system. A Fiber Optic Patch Panels includes up to 12 duplex SC connectors, as well as an integrated IDC shroud with strain reliefs that are. This 1U sliding type rack mount terminal box is a high quality fiber optic patch panel. Comprising of 12 MGX modules, 24 fibre count each. The same with all other. ODF patch panel is a modular system that is suitable for optical cable installation, bare fibers splicing&protection and pigtailed storage&management The 24 core rack mount distribution frame ODF patch panel is a reliable and efficient fiber management solution for your fiber optic network.
