

How much does a fiber optic cable typically cost per meter

Article Overview

Fiber optic cable typically costs between \$0.65 and \$5.00 per meter, depending on type, protection, and installation conditions.

Price Ranges by Cable Type

- Standard indoor runs (simple routing): \$1.20–\$2.60 per meter .
- Single-mode outdoor cable: \$0.10–\$0.50 per meter for basic types, with armored or gel-filled variants increasing costs .
- Multimode cable (OM1/OM2/OM3/OM4): \$0.10–\$0.60 per meter for standard indoor use; high-count or premium multimode can cost more .
- Armored or direct-burial cables: \$0.30–\$1.50 per meter extra for protection against environmental hazards or physical damage .

Factors Affecting Cost

- Fiber Count and Core Type: Higher fiber counts (e.g., 24-core, 96-core) increase material costs. Single-mode fiber is generally cheaper per meter than multimode, but requires more expensive equipment .
- Cable Construction: Loose tube, tight-buffered, armored, or non-armored designs affect pricing. Outdoor-rated jackets (PE, UV-resistant) cost more than indoor PVC or LSZH jackets .
