

How much does a waterproof cable tray cost

Article Overview

Waterproof cable trays typically cost between \$0.9 and \$25 per meter, depending on material, design, and order quantity.

Price Range by Material and Type

- Galvanized Steel: Common, durable, and moderately priced; suitable for most industrial applications. Prices generally range from \$2 to \$15 per meter depending on coating and tray style .
- Stainless Steel: Offers superior corrosion resistance, ideal for harsh environments; costs are higher, typically \$10 to \$25 per meter .
- Aluminum: Lightweight and rust-proof, moderately expensive; prices usually fall between \$5 and \$20 per meter .
- Plastic or FRP (Fiber Reinforced Polymer): Budget-friendly, suitable for light loads, generally \$0.9 to \$5 per meter .

Tray design also affects cost: ladder trays are more expensive due to higher load capacity, while perforated or wire mesh trays are cheaper and suitable for lighter cabling . Bulk orders can significantly reduce the per-meter price, sometimes by 10–30% depending on supplier and minimum order quantity .

Additional Cost Considerations

- Installation Labor: Skilled labor costs vary by region; in Hong Kong, installation can add \$1–\$5 per meter depending on complexity and height .
