

How much does an Ali ladder-type cable tray cost

Article Overview

The price of Ali ladder-type cable trays typically ranges from \$10 to \$100 per meter, depending on material, size, and load capacity.

Price Overview

Ladder-type cable trays are available in galvanized steel, stainless steel, and aluminum, each affecting the cost:

- **Galvanized Steel:** Most cost-effective, suitable for outdoor or industrial use, with corrosion resistance from hot-dip galvanization. Prices generally start around \$10-\$25 per meter for standard sizes .
- **Stainless Steel:** Offers superior corrosion resistance and durability, ideal for harsh environments or aesthetic applications. Prices are higher, typically \$40-\$100 per meter depending on thickness and load capacity .
- **Aluminum:** Lightweight and corrosion-resistant, often used where weight is a concern. Prices are moderate, usually \$20-\$60 per meter .

Factors Affecting Price

- **Material:** Stainless steel is the most expensive, followed by aluminum, then galvanized steel.
- **Tray Size:** Width, height, and length of the tray influence cost. Wider or taller trays designed for heavy cables are more expensive.
