

How much does prefabricated optical fiber cable cost in Europe

Article Overview

Prefabricated optical fiber cables in Europe typically cost between €0.10 and €6 per foot, depending on fiber type, strand count, and pre-termination.

Price Range and Factors

The cost of prefabricated fiber optic cables varies widely based on several factors:

- **Fiber Type:** Single-mode fiber is generally cheaper per foot than multimode fiber, but requires more expensive equipment for installation (around €0.10–€0.50 per foot for single-mode, €0.30–€1.00 per foot for multimode) .
- **Strand Count:** Higher strand counts increase costs proportionally. For example, a 12-strand cable may cost around €0.50 per foot, while a 24-strand cable can reach €1.00 per foot .
- **Pre-terminated Assemblies:** Factory-terminated cables, such as patch cables or pre-connectorized assemblies, are more expensive due to labor and quality assurance, with prices varying by connector type and fiber count .
- **Construction and Rating:** Armored or plenum-rated cables designed for harsh environments or air-handling spaces can cost €0.50–€5 per foot .

Wholesale vs Retail

- **Wholesale Bulk Purchases:** Prices can be as low as €0.09–€1.52 per foot for large-volume orders .
