

Laos Optical Cable Terminal Box 4 Cores

Overview

The 4-core fiber termination box provides a stable, protective joint between optical cable and distribution pigtails at the end of fiber cables. It is typically used in cabling work area subsystems. It can complete the access and port output of fiber optic, provide devices for fixing, stripping, splicing, and protection of fiber optic, and allow for the storage of a small amount of redundant fiber. The 4 port FTTH termination box is a professional enclosure designed to provide a reliable and efficient fiber termination solution for indoor fiber-to-the-home applications. It serves as an indoor fiber outlet, connecting drop cables to end-user devices and ensuring stable, high-speed optical. 4 Port Fiber Termination Box is designed for FTTH (Fiber to the Home) system applications. Featuring 1 inlet, 4 outlet, it.
