

Lithuanian manufacturer of 6-core fiber optic cables for smart buildings

Overview

Skaidula has started its activity in 1989 by designing, producing and disposing of metrological equipment and cables for telecommunications. In 1994, Skaidula became a representative of Siemens in Lithuania and began assembling and servicing the Siemens PBXs and selling Siemens. Telecentras is a Lithuanian state-owned joint-stock company that offers a range of services including radio and television program transmission, data transmission, internet services, smart television, telephony services, and data center solutions. UAB Lithutec (PIT Group) stands for production, innovation, and technology and is your reliable partner for comprehensive solutions in the field of cable assembly and contract manufacturing. From 2020 to 2024, Lithuania's trade in optical fiber cables was characterized by a significant reliance on imports from key European and Asian suppliers, while developing. In 2026, the European fiber optic market is experiencing a massive surge as nations race to meet the European Commission's "Gigabit Society" goals. The region has become a global hub for sustainable cabling and ultra-high-density urban fiber. Europe hosts the world's most established fiber optic cable manufacturers.
