

Outdoor Green Distribution Box

Overview

The highly robust plastic housing provides optimal protection against dirt and moisture in outdoor areas and is splash- and jet-waterproof from all directions. With 5 cable entries/exits with a maximum diameter of 15 mm, this distribution box is versatile in its use. High-Performance Power Distribution Box: Includes (1) 50A CS6375 twist-lock inlet, (1) 50A CS6375 outlet, and (6) 20A GFCI-protected duplex receptacles, perfect for reliable industrial, construction, and outdoor power needs. With 5. In the power system, the **green electrical box** usually refers to the **low-voltage distribution box** or **power distribution cabinet** used outdoors, and its color design is mainly related to functions, safety signs, and environmental adaptation. The following is a detailed explanation: ### I. The large, green metal box sitting low to the ground in a yard is a common sight in modern suburban and residential neighborhoods utilizing underground power distribution. Although we can't match every price reported, we'll use your feedback to ensure that.
