

Price List of Seismic-resistant Cable Trays in the Netherlands

Article Overview

Exact price lists for seismic-resistant cable trays in the Netherlands are not publicly listed online, but several suppliers provide quotations based on project specifications.

Key Suppliers in the Netherlands

- Beemster Electrical Solutions – Offers CPR-certified cable support systems, including cable trays suitable for seismic applications. They provide technical advice and project-specific solutions, but pricing is provided upon request based on installation requirements and tray dimensions .
- Niedax Group (Gouda Holland B.V.) – Operates in the Netherlands and supplies steel, aluminum, PVC, and GRP cable management systems. They specialize in complex industrial and energy projects and can provide seismic-resistant solutions. Prices are typically determined after consultation and project assessment .
- Eurotray Support Systems – Provides seismic bracing and mechanical support systems for cable trays. They focus on structural safety and compliance with seismic standards, with pricing dependent on tray size, material, and installation complexity .
- EAE Electric (E-Line Seismic) – Offers rigid seismic support systems for cable trays and other suspended installations. Their systems are designed for quick installation and earthquake protection, with costs varying according to project scale and structural requirements .
