

Price list for fiberglass cable trays in Laos

Article Overview

Fiberglass (FRP) cable trays in Laos typically range from \$20 to \$50 per meter, depending on material, type, customization, and order volume.

Price Overview

The cost of fiberglass cable trays varies based on material quality, load capacity, environmental resistance, and surface finish. Factory-direct or OEM options can offer competitive pricing, especially for bulk orders, while premium or customized trays may cost more. Globally, fiberglass cable trays are considered a premium choice due to their corrosion resistance, lightweight design, and durability.

Factors Affecting Price

- **Material and Type:** Standard FRP trays are less expensive than high-strength or coated variants. Ladder-style trays generally cost more than perforated or solid-bottom trays.
- **Customization:** OEM or project-specific designs can increase cost but ensure compliance with load and environmental requirements.
- **Order Volume:** Bulk purchases often qualify for volume discounts, reducing the per-meter price.
- **Shipping and Import:** Importing trays from nearby countries like China can reduce costs by 30–50%, but shipping fees and local taxes in Laos should be considered.
- **Installation and Accessories:** Additional costs may include brackets, fasteners, and labor for installation.

Supplier Options in Laos
