

Price of Distribution Box Organizer

Article Overview

Distribution box organizers typically range from \$20 for small indoor racks to over \$500 for industrial electrical distribution boxes, depending on size, material, and features.

Electrical Distribution Boxes

Electrical distribution boxes, used for power management in residential, commercial, or industrial settings, vary widely in price based on specifications such as voltage rating, amperage, number of circuits, material, and safety features. Standard residential units can cost anywhere from \$50 to \$200, while commercial or industrial-grade boxes with advanced features like smart monitoring, weather resistance, or high-capacity three-phase systems may range from \$300 to \$500 or more . Outdoor-rated or stainless steel enclosures designed for harsh environments carry premium pricing due to durability and corrosion resistance . Customization, such as OEM branding, modular busbar fitment, or specialized mounting, can further increase costs .

Storage and Organizer Racks

For organizing shipping boxes or general storage, metal or plastic organizer racks are available. Small indoor racks or plastic organizers typically start around \$20-\$50, while larger floor-standing metal racks with dividers and wheels can cost \$100-\$400, depending on capacity and build quality . Features like portability, weight capacity, and tiered shelving influence the price.
