

Price of Explosion-proof Lighting Distribution Boxes

Article Overview

Explosion-proof lighting distribution boxes typically range from \$300 to over \$2,000 per unit, depending on specifications, certifications, and features.

Price Range and Factors

The cost of explosion-proof distribution boxes varies widely based on several factors:

- **Certification and Compliance:** Boxes certified for ATEX, IECEx, or NEC standards for Zone 1, Zone 2, or Class I Division 2 environments generally cost more due to rigorous testing and compliance requirements .
- **Material and Construction:** Enclosures made from GRP (glass fiber-reinforced polyester), stainless steel, or aluminum with anti-static coatings and flameproof designs increase durability and price .
- **Current Rating and Capacity:** Units with higher main switch ratings (up to 180A) and multiple branch circuits (up to 63A) are more expensive .
- **Ingress Protection:** IP65 or IP66-rated boxes that are waterproof and dustproof command higher prices due to enhanced protection in harsh environments .
- **Additional Features:** Color-coded indicators, external rotary actuators, and modular designs for flexible protection can also affect cost .
