

Price of Intelligent Protective Distribution Box

Article Overview

The price of an intelligent protective distribution box typically ranges from \$150 to over \$1,000 depending on specifications, capacity, and smart features.

Pricing Overview

The cost of an intelligent protective distribution box varies widely based on voltage rating, amperage capacity, number of circuits, material construction, and integrated safety features . Standard residential units with basic smart monitoring may start around \$150-\$300, while commercial or industrial-grade units with advanced load management, surge protection, and remote monitoring can exceed \$1,000 per unit .

Factors Affecting Price

- **Capacity and Configuration:** Single-phase residential boxes are cheaper than three-phase industrial systems .
- **Material and Durability:** Weather-resistant or corrosion-proof enclosures for outdoor use carry premium pricing .
- **Smart Features:** Digital displays, energy monitoring, remote control, and automated load management increase cost .
- **Customization:** OEM branding, modular busbar fitment, and specialized mounting options can further raise the price .
- **Installation and Maintenance:** Professional installation and long-term maintenance considerations add to the total investment .
