

Price of Optical Cable Reel

Article Overview

Optical cable reels typically range from \$50 to \$500 or more, depending on size, material, and capacity.

Price Overview

- Small portable reels for short fiber lengths (up to 100–200 meters) are generally priced around \$50–\$150 on platforms like Amazon . These reels are lightweight, made with steel frames and engineering plastic, and suitable for manual winding and unwinding.
- Medium to large reels for 300–700 meters of fiber cable, often used in data centers or outdoor installations, range from \$200–\$500 . These reels feature sturdy steel frames, easy-grip handles, wheels for portability, and precise winding mechanisms to prevent cable damage.
- Specialized or heavy-duty reels with larger barrel diameters, PE foam coating, or ISO-certified manufacturing can exceed \$500, particularly for industrial or broadcast applications .

Factors Affecting Price

- Cable Capacity: Reels designed for longer fiber lengths (e.g., 600–700 meters) cost more due to larger size and stronger construction .
- Material and Durability: Steel frames with plastic or PE-coated barrels are common; higher-quality materials increase price .
- Portability Features: Wheels, ergonomic handles, and lightweight designs add convenience but may slightly raise cost .
