

Server multi-GPU AI computing

Overview

AI models need massive computing power, and GPUs have become the backbone for training and inference. Our GEX-line is powered by NVIDIA GPUs with CUDA technology and is perfect for AI workloads and machine learning. Get AI models and tools such as DeepSeek or Ollama running on our dedicated GPU servers and tag us on Hugging. Direct-to-chip liquid-cooled systems for high-density AI infrastructure at scale. This article explains what GPU servers are, why they matter for AI and how teams can access GPU compute through cloud platforms, dedicated instances, bare-metal servers or hybrid setups. By using GPU servers, we can reduce the time it takes to train models from days to hours, create larger batch sizes, work with higher resolution. AIME is specialized in high-performance computing solutions tailored for artificial intelligence. Both baseboard and PCIe card types are supported, with options for either liquid or air cooling.

Article Content

DGX Platform: Built for Enterprise AI | NVIDIA

Lockheed Martin is centralizing compute resources, machine learning operations tools, and best practices in their AI factory, powered

MGX Platform for Modular Server Design | NVIDIA

AI factories are the new unit of compute—data centers designed to transform massive volumes of raw data into intelligence across

NVIDIA HGX Platform

AI factories and supercomputing centers span thousands of GPUs as a single distributed computing engine. To keep accelerators

Multi RTX GPU HPC Workstations

Multi RTX GPU HPC Workstations Unleash Scalable Power for AI, Simulation, and Scientific Computing! Titan's Multi RTX GPU

GPU Servers For AI, Deep / Machine Learning & HPC | Supermicro

Dive into Supermicro's GPU-accelerated servers, specifically engineered for AI, Machine Learning, and High-Performance Computing.

AIME | Deep Learning Workstations, Servers, GPU-Cloud Services

From state-of-the-art HPC servers and workstations to a powerful AI cloud, we provide scalable, reliable, and efficient infrastructure
