

Slovenia Waterproof Distribution Box Model Specifications

Article Overview

Waterproof distribution boxes for Slovenia typically feature IP65-rated ABS or polycarbonate enclosures, DIN rail compatibility, and multiple model series for indoor and outdoor use.

Key Specifications

Ingress Protection (IP Rating): Most waterproof distribution boxes are rated IP65, providing protection against dust and water jets, suitable for outdoor and industrial environments. Some models extend to IP68 for full submersion protection . **Material:** Enclosures are commonly made from ABS or polycarbonate, offering lightweight strength, UV resistance, and durability in harsh conditions . **Model Series:**

- **AT Series:** Compact, value-focused, ideal for tight spaces and straightforward cabling .
- **HT Series:** Larger internal space for cleaner routing, extra terminals, or small DIN rail configurations . **Dimensions:** Example specifications for a 12-way DIN rail box are 255 x 200 x 110 mm (10 x 7.9 x 4.3 in), with a transparent gray cover for visual inspection of switches without opening the box . **Internal Components:**
 - **DIN Rail Compatibility:** Supports mounting of miniature circuit breakers (MCBs) and residual current devices (RCCBs) for circuit protection .
 - **Bus Bars and Neutral Links:** Provide safe electrical distribution and grounding.
