

Vietnam Spectrometer Price Quote

Article Overview

The reference price of spectrometers in Vietnam generally ranges from \$1,000 to \$20,000 per unit, depending on type, brand, and specifications.

Market Overview

Vietnam imports a significant number of spectrometers, with shipments totaling around 6,200 units from over 1,100 suppliers, primarily from the United States, Japan, and Germany . The market includes modular spectrometers, mass spectrometers, and laboratory teaching models, with prices varying according to technology and application .

Price Ranges

- Basic laboratory spectrometers for educational or teaching purposes typically cost \$1,000–\$5,000 per unit .
- Mid-range analytical spectrometers (UV-VIS, NIR, or modular systems) are priced around \$5,000–\$10,000 per unit .
- High-end mass spectrometers or specialized research instruments can exceed \$15,000–\$20,000 per unit, depending on brand and configuration .

Factors Affecting Price

- Brand and Origin: Imported spectrometers from the US, Japan, or Germany tend to be more expensive than locally assembled or Indian-manufactured models .
- Type and Functionality: Mass spectrometers, multi-channel detectors, and modular systems with UV-VIS-NIR capabilities command higher prices than basic single-channel instruments .
