

# What is Huawei s core switch rack-mounted

## Overview

Thanks to its port density, latency, and VXLAN features, S6730-H is used in leaf-spine architectures, aggregating server racks and offering east-west traffic segmentation securely. Plug-and-play rollout via SVF ensures quick edge deployments. Huawei switches already help customers achieve success in industries such as finance, Internet, retail, education, manufacturing, and public services. And with solutions rated as Challenger and Visionary by Gartner, Huawei will take you to the next level. Huawei works with thousands of partners. When installing mounting brackets for the S5755 switch with a depth of 335 mm, use the screws coated with nylon powder delivered with the switch. With chassis models like S8700-04, S8700-06, and S8700-10, this series delivers unparalleled bandwidth (up to 16 Tbps), deep virtualization support, MACsec. With up to 48 10 GE downlinks and 40/100 GE uplinks, the S6730-H series supports bandwidth-hungry access and spine layers—perfect for Wi-Fi 6 APs, 4K/8K video, and virtualization workloads. Based on Huawei's VRP OS, the series delivers OSPF, BGP, RIPvng, IS-IS, VRRP, and ECMP. 4 Tbps. The S6700 series switches (S6700s) are next-generation 10G box switches. It can be used in. Introducing the Huawei S12700E-4 assembly chassis an advanced networking solution designed to meet the dynamic needs of modern businesses and data centers. The ET1BS12704E0 model is engineered to support complex applications and services, offering unparalleled performance, flexibility, and.
