

# Where are lc fiber optic pigtails used

## Article Overview

LC fiber optic pigtails are widely used to connect fiber optic cables to network equipment in high-density and high-performance environments such as data centers, enterprise networks, FTTH, and test setups.

### Overview

LC pigtails are short fiber optic cables with an LC connector on one end and a bare fiber on the other, designed to be fusion or mechanically spliced to a main fiber cable. Their small form factor, low insertion loss, and ease of installation make them ideal for high-density applications and reliable network connections .

### Common Applications
