

Xqj-t cable tray specifications

Article Overview

XQJ cable trays come in ladder, tray, and channel (trough) types, each designed for specific cable management needs and installation environments.

Types of XQJ Cable Trays

- Ladder Type (T)
 - Features open rungs for excellent ventilation, reducing heat buildup in power cables.
 - Not dust-proof or interference-proof, making it ideal for environments where airflow is critical.
 - Suitable for indoor and outdoor overhead cable trenches and tunnels.
 - Provides high load-bearing capacity and easy cable installation and maintenance .
- Tray Type (P)
 - Solid-bottom design offering dust-proof and anti-interference performance.
 - Ideal for control cables, lighting wiring, and sensitive low-voltage applications.
 - Can be installed overhead, under floor slabs, along walls, or on open-air supports.
 - Offers a balance between protection and flexibility for various industrial and commercial projects .
- Channel/Trough Type (C)
 - Enclosed or semi-enclosed design for maximum protection against dust, moisture, and electromagnetic interference.
